

SCSC DONATED VND 500 MILLION THROUGH HTV'S “CHUNG MỘT TÂM LÒNG” FUND, WITH THE SUPPORT OF GEMADEPT GROUP

In response to the severe damage caused by natural disasters and floods in Central Viet Nam in recent times, Saigon Cargo Service Corporation (SCSC), with the support of Gemadept Group, donated VND 500 million through the “Chung Một Tâm Lòng” Fund of Ho Chi Minh City Television (HTV). Part of this contribution was voluntarily donated by SCSC employees, demonstrating the spirit of solidarity, compassion and social responsibility of SCSC workforce.

The donation was presented by SCSC in December 2025 in Dak Lak Province, with the aim of joining hands to support people in Central Viet Nam affected by natural disasters and floods, helping them overcome difficulties and gradually stabilize their lives and daily activities.

In addition to maintaining effective and sustainable production and business operations, SCSC consistently places great emphasis on social welfare activities, considering them as an integral part of our long-term development strategy associated with the community. With the support and companionship of Gemadept Group and the voluntary contributions of our employees, SCSC hopes to make a meaningful contribution through HTV's “Chung Một Tâm Lòng” Fund, joining local authorities and people in Central Viet Nam in overcoming hardships and gradually restoring life after natural disasters.

Over the years, SCSC has actively participated in charitable and community support programs, especially during times of natural disasters and epidemics. This donation once again affirms SCSC's role and social responsibility in standing together with the community and spreading the spirit of solidarity and mutual support of Vietnamese enterprises.
