SCSC's achievement of the 3rd position clearly reflects our operational capability, professional service quality and the sustainable development strategy that SCSC has consistently pursued over the years. SCSC continues to invest in infrastructure, apply

advanced technologies, enhance human resource quality and optimize operational processes, thereby increasingly meeting the needs of customers and airline partners.

This recognition not only acknowledges the efforts of SCSC's management and employees, but also serves as a strong motivation for SCSC to continue innovating, strengthening our competitive capacity and affirming our leading position in Vietnam's air cargo logistics sector.

In the coming period, SCSC remains committed to accompanying with our partners and customers, contributing to the safe, efficient and sustainable development of Vietnam's air cargo logistics industry.
